Document Checklist for Software Solutions

General documents/details required for various software solutions (ERP, CRM, custom applications, etc.) based on business need.

Documents Required

- Business registration/incorporation proof
- Details of business processes to be covered by the software
- Existing software/systems in use, if any (for migration/integration)
- Number of users and departments to be covered
- Specific features/modules required
- Budget range and implementation timeline

Note: The above list indicates commonly required documents/details. Additional information may be requested depending on the specific scope and technology involved. Expert Registration confirms the exact requirement after a brief consultation.
