

ISO CERTIFICATION

ISO 16001 Certification

Document Checklist for ISO Certification

Professional assistance for ISO 16001 Certification (Energy Management System - predecessor to ISO 50001), covering eligibility review, document checklist, application preparation, filing coordination and follow-up support.

Documents Required

- Business registration/incorporation proof
- Site plan and process flow of operations
- Energy policy of the organisation
- Energy consumption data/records (electricity, fuel, etc.)
- List of significant energy-consuming equipment/processes
- Legal compliance register related to energy regulations
- Details of energy objectives and targets set by the organisation
- Existing energy audit reports, if any

Note: The above list indicates commonly required documents. Additional documents may be requested by the certification body during the audit process depending on the specific case. Expert Registration confirms the exact requirement after a brief consultation.
