

ISO CERTIFICATION

ISO 39001 Certification

Document Checklist for ISO Certification

Professional assistance for ISO 39001 Certification (Road Traffic Safety Management System), covering eligibility review, document checklist, application preparation, filing coordination and follow-up support.

Documents Required

- Business registration/incorporation proof
- Details of vehicle fleet/road transport operations
- Road traffic safety policy of the organisation
- Road safety performance factors and risk assessment records
- Driver qualification, training and licensing records
- Vehicle maintenance and inspection records
- Incident/accident records, if any, with corrective actions
- Emergency response plan for road traffic incidents

Note: The above list indicates commonly required documents. Additional documents may be requested by the certification body during the audit process depending on the specific case. Expert Registration confirms the exact requirement after a brief consultation.
