

ISO CERTIFICATION

ISO 50001 Energy Management Certification

Document Checklist for ISO Certification

For Energy Management System (EnMS) certification under ISO 50001.

Documents Required

- Business registration/incorporation proof
- Site plan and process flow of operations
- Energy policy of the organisation
- Energy consumption data/records (electricity, fuel, etc.)
- List of significant energy-consuming equipment/processes
- Energy baseline and energy performance indicators, if established
- Legal compliance register related to energy regulations
- Details of energy objectives and targets set by the organisation

Note: The above list indicates commonly required documents. Additional documents may be requested by the certification body during the audit process depending on the specific case. Expert Registration confirms the exact requirement after a brief consultation.
